### A Fire Near Charleston Responsible for the Break in the Wires.

The report that there was a recurrence of earthquake shocks at Charleston, S. C., as published in the morning papers, caused a deal of apprehension in this city, and the tickers and THE EVENING WORLD bulletins were closely watched during the early part of the morning for news of the supposed

# JEROME'S LAST RACES.

Close of the Season in New York Under the Ives Law.

The Favorites Again Carried Off the Honors and Backers Were Happy.

McLaughlin Brings George Oyster Home First By Vigorous Riding and is Loudly Cheered-The Other Winners Were Mamie Hunt, Laggard, Linden, Phil Lee and Justin Mack-The Ruces at Latonia.

[SPECIAL TO THE EVENING WORLD.] JEROME PARK TRACK, Oct. 15 .- The autumn meeting of the American Jockey Club ends to-day, and as it is the last day of public betting under the provisions of the Ives Pool bill, there was a great crowd present and the boxes of the bookmakers are overflowing with "fives and tens" of those who have found the sure winners.

The season, as a whole, has been a great betting one, but it is a mistake to suppose that the "bookies" have made all the money. Each of the sixty stands doing business have had to pay out at least \$15,000 for privileges and expenses before they could begin making a profit. The public speculators have not all been losers, while some of the owners have done very well, and with the exception of some small stables the hav and feed bills are paid.

As usual on last days, the card is made up of "get-away" handicaps, as they are called. They began well for backers, with Mamie Hunt winning the seven furlongs, and Harry Russell second-to the delight of the Philadelphia division, who had backed him for

The second race a handican for two-yearolds, showed McLaughlin on Geo. Oyster, as Garrison did not wish to ride against his own filly Speedwell. George Oyster won, and McLaughlin was loudly cheered when he came back to the scales.

The favorite landed in the third race. Arundel was ridden in this race by McCarty, and it was understood that, although the and it was understood that, although the Richmond inquiry was not really at an end, the result will be virtually an acquittal.

The fourth race was captured by Linden making the fourth successive race won by the favorite, while Phil Lee defeated Choctaw, the favorite for the selling race, and Justin Mack. Mr. Leonard Jerome says that he hopes to arrange a race programme for Election Day, which will include attractions for the hunt clubs, with a few flat races and, of course, a dance at the clubhouse.

Dusturdly Attempt to Wreck the Presidential Train in Arkanses. [SPECIAL TO THE EVENING WORLD.]

CHICAGO, Oct. 15.—A News special from Memphis, Tenn., says: "When the pilot train preceding the Presidential train arrived at a trestle between Bonnerville and Jonesboro, Ark., yesterday morning, the engineer discovered the trestle to be on fire. He did not make the discovery until it was too late to stop the train before the engine had passed over the burning portion. As soon as possi ble he backed the train off the trestle and jumped down to examine the fire. found that . a section about feet square was in flames and that the fire had been started on the under side of the timbers. The engineer and all the rest of the trainmen, with the help of some of the pas-sengers, succeeded in putting out the fire, when it was discovered that the flames had not eaten dangerously far into the wood. and the trestle was still safe for the passage of trains. Had the train been ten minutes later, however, there might have been another Chatsworth horror to chronicle."

A News staff correspondent who happen to be on the train made a careful examina tion of the burned timbers, which gave unmistakable evidence of an attempt at train-

The fire was started on the under side of the cross-ties in such a manner that there can be no possible belief that sparks were the cause of it. Then, too, the fire was certainly set to more than one tie at a time, for it could not have jumped from one to another without burning the sides of the timbers more than it did. The conclusion is almost irresistible that somebody had applied a torch to at least eight or nine of the timbers.

" Nowhere all through this broad land will you find more loyalty to the Constitution and to the Government created by it, than among the people of the Southern States."

POLICEMAN HAHN ON DUTY AGAIN. But Charges to be Preferred on Which the

Police Force May be Rid of Him.

Expressions of indignation were heard everywhere to-day at the acquittal of Policeman Hahn for the murder of the brave lifesaver, Capt. Jack Hussey. Hahn reported for duty to Supt. Murray, at 9 o'clock, and was kept waiting for two hours until after the Police Board meeting. Then it was decided that his shield must be returned to him. He

that his shield must be returned to him. He was ordered to report for duty at 6 o'clock this evening in the Tremont Precinct, up in the "goat district."

Capt. Slevin has been directed to prefer charges against Hahn of intoxication and failure to report for duty, both of which charges are suported by evidence taken at the murder trial. It is probable that Hahn will be dismissed the force on this complaint.

## WILL POWDERLY RESIGN?

The Labor Knights Have a Great Row Over Barry and Bailey.

[SPECIAL TO THE EVENING WORLD.]
MINNEAPOLIS, Minn., Oct. 15. — This morning General Master Workman Pow-derly attached his signature to his peremptory resignation of that po-sition. He will withhold the sition. He will withhold presentation of this document to the as bly pending action upon a report of the Committee on Laws which was submitted just before adjournment last evening.

The battle was over the proposition to give Powderly power to appoint his Cabinet. The proposition was introduced in the Convention last night and for several hours disvention last night and for several hours dis-cussion was hot. The session adjurned without deciding anything. As the situation stands this morning Powderly's oppontuents have the best of it. As soon as the amend-ment was proposed, W. T. Lewis, of Shawnes, O., the bosom friend of Messrs. Barry and Bailey, against whom the measure was de-signed to operate, jumped to his feet and charged the administration with conspiracy, maintaining his position and pushing the charges with a vigor that surprised every-body. The strangeness of the whole pro-ceeding, as far as the administration particle concerned, appears when it is known that a proposition to restrict the number of mem-bers on the General Executive to three was reported unfavorably yesterday morning and rejected without debate by Powderly's frieuds, who proposed a similar measure by the afternoon.

The Republican Commissioners Have a Little

Game of Their Own. The friends of John J. O'Brien feel very uneasy at the sudden change of front as Commissioners French and McCla O'Brien's days may well be said to be numbered as Chief of the Bureau of Elections. The Republican Commis by casting their votes for Richard E. Mott, one of the three eligible competitors sent up by the Civil-Service Commission, virtually declared a willingness to cut loose from the O'Brien influence, and it is felt at Police Headquarters that they have played a very sharp game, and placed the responsibility of permitting O'Brien to "hold over" on Voorhis and Porter, the Democratic Commissioners.

Voorhis and Forter, the Democratic Com-missioners.

Commissioners French and McClave pra-sented to the Board of Police Commissioners at its meeting this morning, a note saying that in their opinion the Inspectors of the United Labor party are being deprived of the legal rights granted them by the Legisla-ture, and voting to postpone until after Nov. 8 the resolution calling upon O'Brien to show cause why he appointed the Labor in-spectors.
